

Mon Guide de pose C'easy

Poser son rangement
facilement c'est possible ?

Bien sûr !

cuisinella[®]

VERSION 02/23

Quelques mots avant de commencer

Vous venez d'acquérir votre rangement **C'easy Cuisinella** et nous vous remercions de vous être laissé tenter ! Afin de profiter pleinement de votre Cuisinella pendant de nombreuses années, **il est maintenant indispensable de le poser avec le plus grand soin.**

Ce guide réunit les informations essentielles pour vous y aider. Et n'oubliez pas, **vous n'êtes pas seul : pour toutes questions..., n'hésitez pas à demander conseil à votre conseiller Cuisinella !**

Retrouvez également ces informations, ainsi que nos films de pose, sur notre site internet :

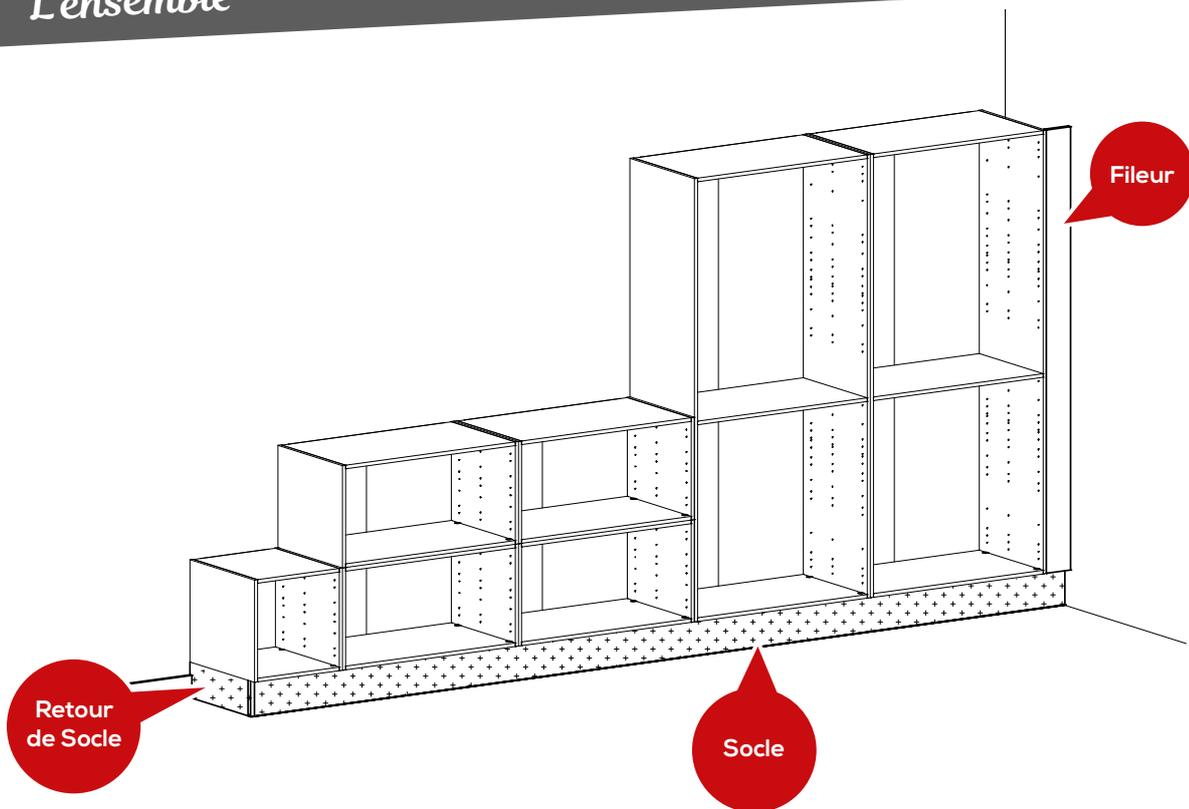

www. **Ma.cuisinella**[®]

L'ensemble

Le meuble haut

Le meuble bas / l'armoire

Je prépare ma pièce et mon matériel

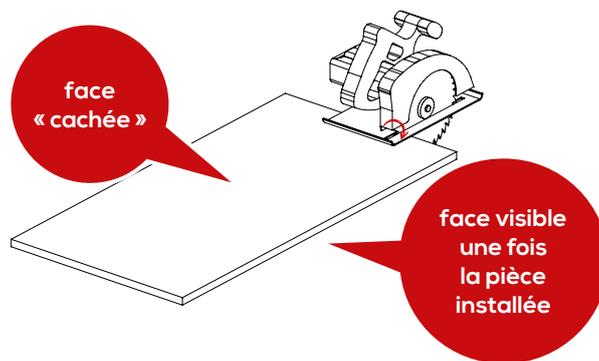

Je prépare ma zone de travail pour le montage de mon rangement C'easy :

- J'ai protégé mon sol
- Pour travailler dans de bonnes conditions, j'ai organisé un espace avec suffisamment de place.
- J'ai tous mes outils à portée de main et chargés (batteries...)

Je suis les conseils de pose et de sécurité

4 points pour commencer en toute sécurité

- 1** J'utilise un escabeau plutôt que de monter sur les meubles ou les cartons !
- 2** J'utilise les chevilles et vis adaptées à la nature de mes murs.
- 3** Lorsque je scie une pièce, je veille à toujours protéger sa face visible pour ne pas l'abîmer.
- 4** Je m'équipe de gants et lunettes de protection pour travailler en toute sécurité.

conseil de l'expert

“

Si vous n'avez pas de scie circulaire de professionnel, il est conseillé de couper vos panneaux à l'envers : placez la scie sur la face « cachée », et pas sur la face visible (une fois la pièce installée) : cela évitera de faire des éclats visibles (exemple, pour scier un plan de dépose, retournez-le et coupez sur la face placée normalement sur le dessous).

Veillez à avoir ces outils à portée de main, et vérifiez que les outils portatifs, équipés d'une batterie, soient rechargés avant le début du montage de votre rangement.

À chaque étape, nous vous indiquerons les outils nécessaires.

Attention, attention, attention : Chevilles et vis nécessaires

***Le choix des chevilles et vis pour les fixations murales est de votre responsabilité ou de celle du poseur professionnel. Les chevilles de fixation ne sont pas fournies.**

Choisissez le type de vis et de chevilles, ainsi que la méthode de perçage, en fonction de la nature et de la qualité de vos murs (cloison tendre, cloison dure, etc.) ainsi que de la taille et du type de meubles que vous avez choisis. En cas de doute, renseignez-vous auprès d'un spécialiste.

Les meubles sont équipés de crochets qui résistent à une charge de 65 Kg chacun, soit 130 Kg maximum en fonction de la taille du meuble. La conception des meubles est en conformité avec les exigences de la norme NF EN 14749 et elle garantit la tenue à la charge en fonction des dimensions des meubles.

Difficulté de montage

Montage facile

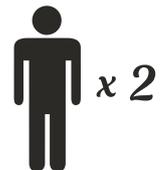

Montage moyennement difficile

Montage difficile

Nombre de personnes nécessaires à chaque étape

“

Suivez les conseils d'expert :

Tout au long du guide, lorsque vous verrez ce sigle, vous bénéficierez d'un conseil pratique ou d'une astuce pour faciliter le montage.

”

6 points pour se lancer de manière organisée

- 1 Je consulte et conserve les documents fournis (guide de pose, plans d'implantation, notices, etc.).
- 2 Je contrôle et trie les différents éléments.
- 3 Conserver les façades et accessoires emballés jusqu'à leur pose.
- 4 D'abord assembler tous les caissons.
- 5 Ensuite selon implantation : démarrer par l'angle.
- 6 Installer les accessoires et réaliser les finitions.

Pensez à trier vos déchets. Ce pictogramme vous rappelle que les éléments à jeter sont soumis au tri sélectif en vigueur.

La Start Box

Cuisinella s'engage pour plus de qualité.

Votre box est scellée sur le quai d'expédition de nos usines et ouverte devant chez vous.

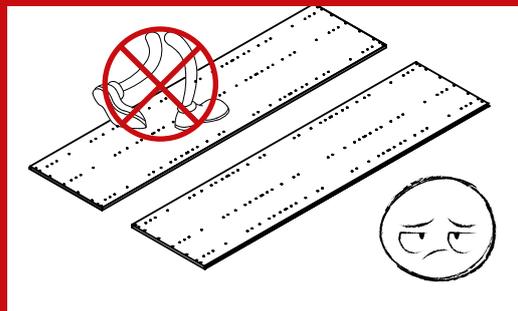

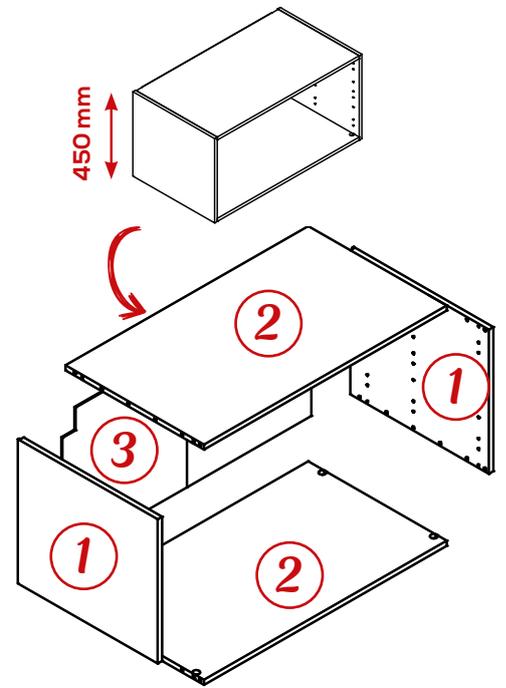

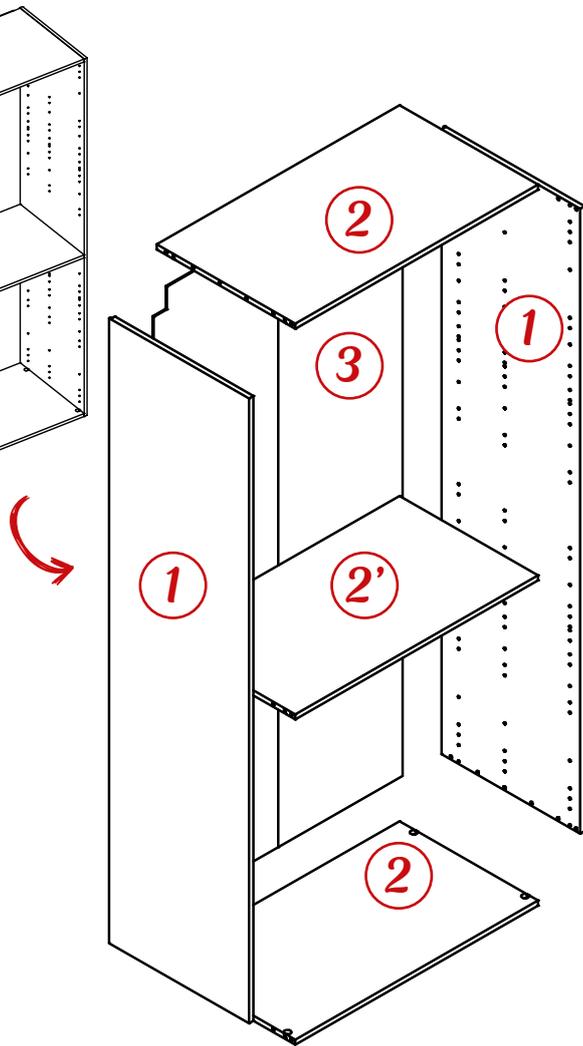

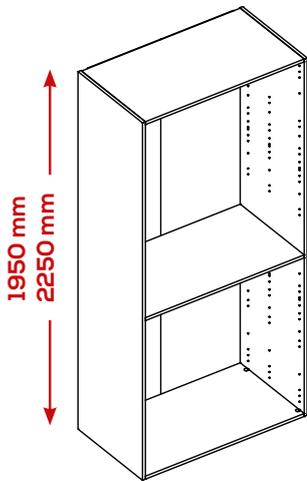

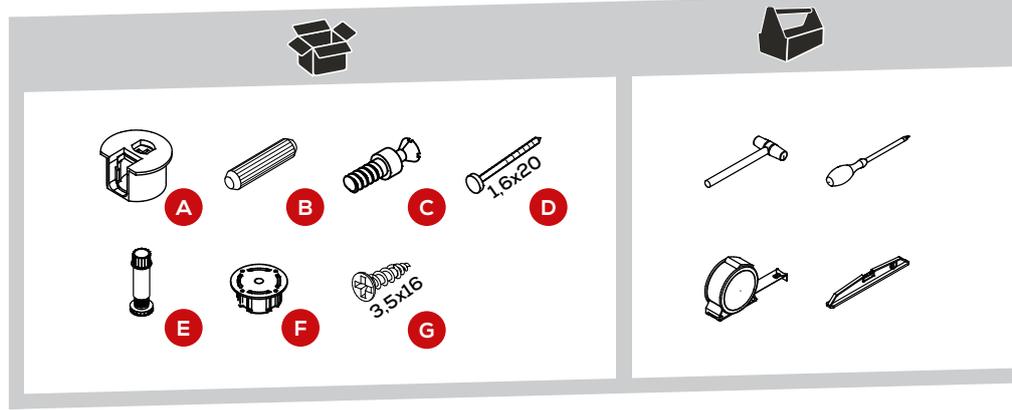

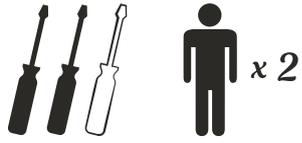

Vos meubles sont ainsi totalement protégés pendant tout le trajet vers votre domicile.

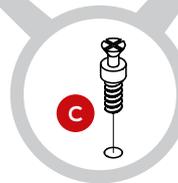

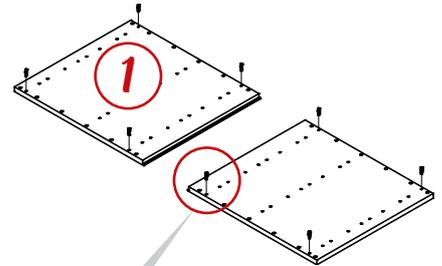

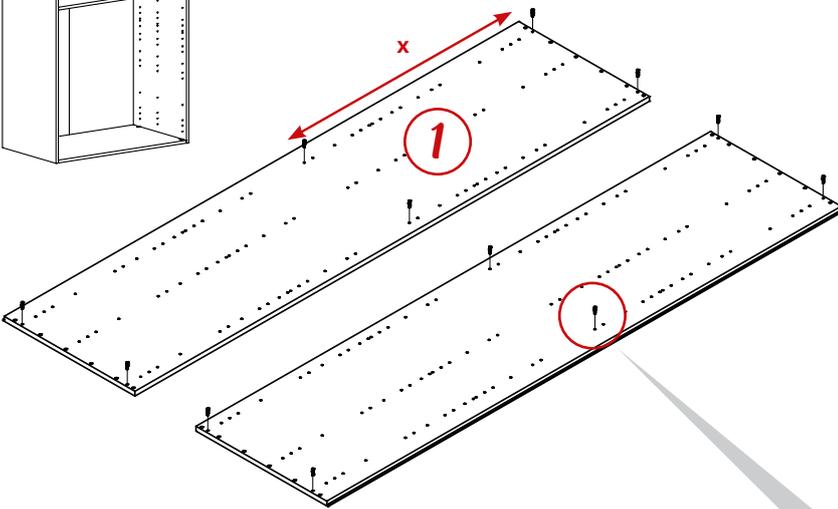

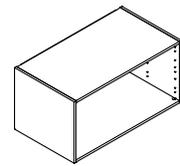

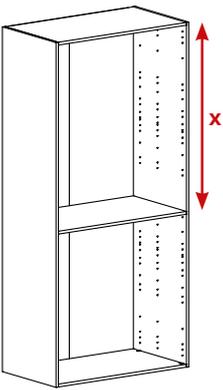

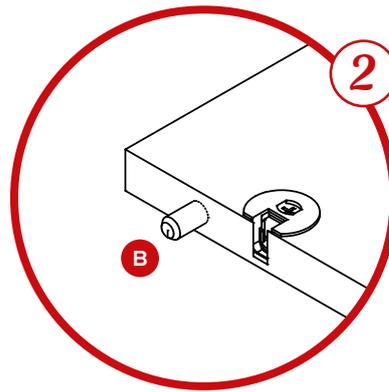

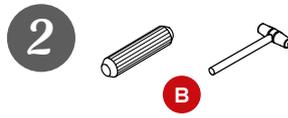

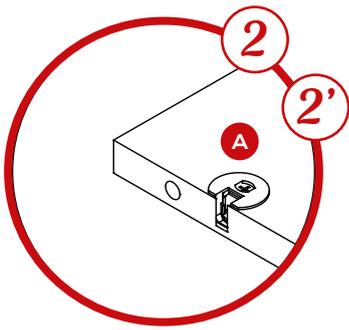

Cuisinella s'engage pour l'environnement

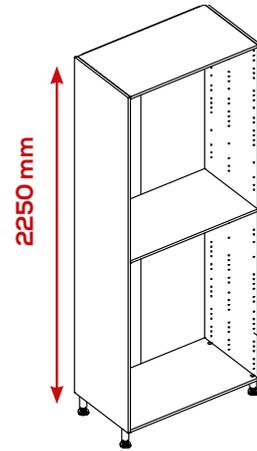

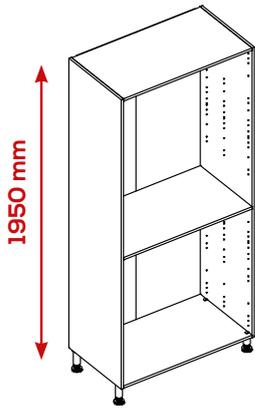

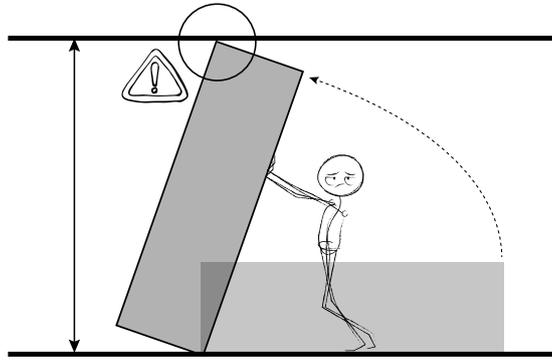

Nos box sont réutilisables ! C'est ainsi 280 tonnes d'emballage en moins par an.

Nos box sont empilables ! Grâce à l'optimisation du chargement de nos camions, ce sont 600 camions de moins sur nos routes par an.

Installer les meubles hauts

Il existe des meubles hauts de différentes hauteurs. À vous de les positionner en fonction de votre plan et de l'esthétique générale que vous souhaitez donner.

conseil de l'expert

“

Positionnez vos éléments hauts de façon à faciliter l'accès au contenu.

”

“

Respectez les consignes de sécurité : voir plan technique pour monter des meubles hauts.

”

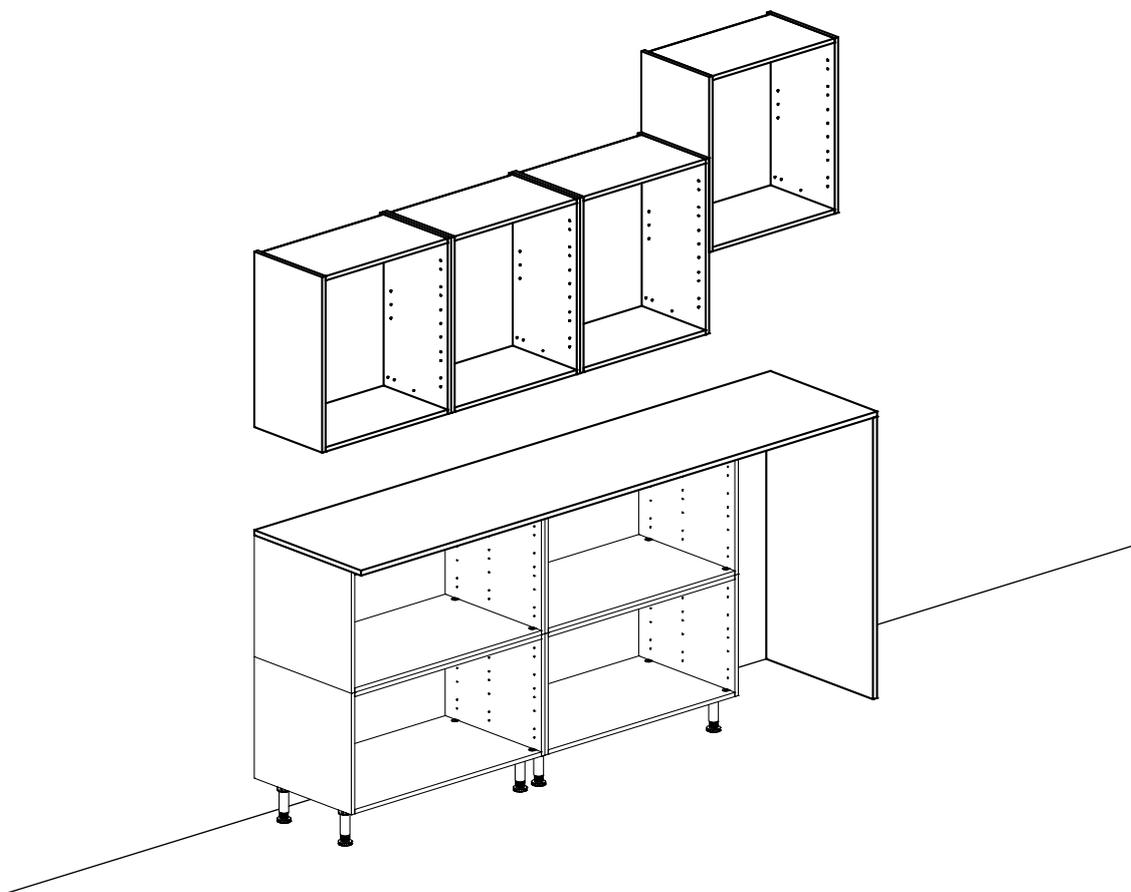

conseil de l'expert

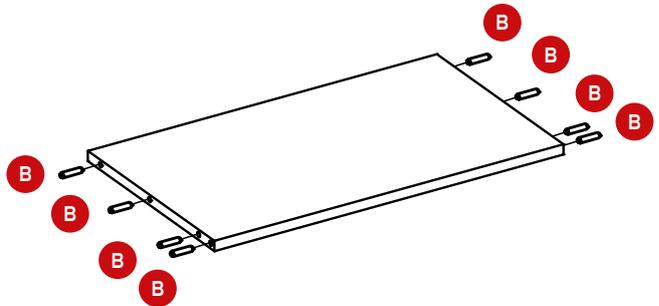

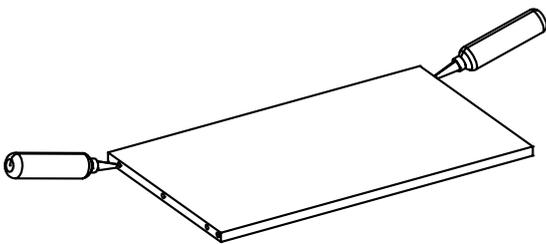

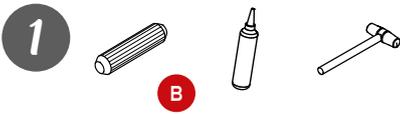

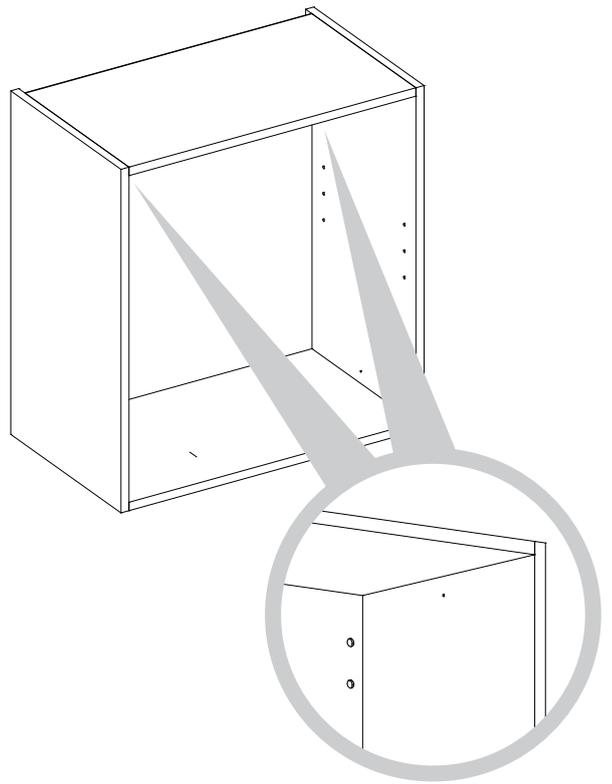

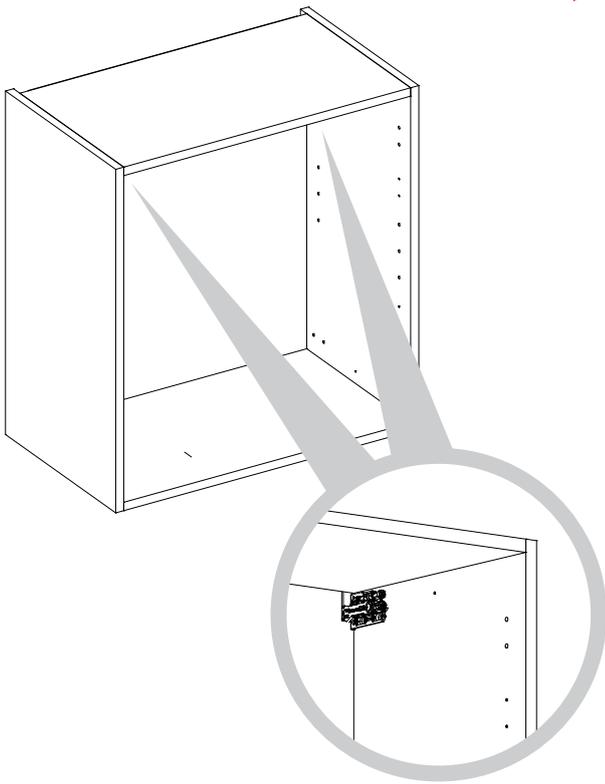

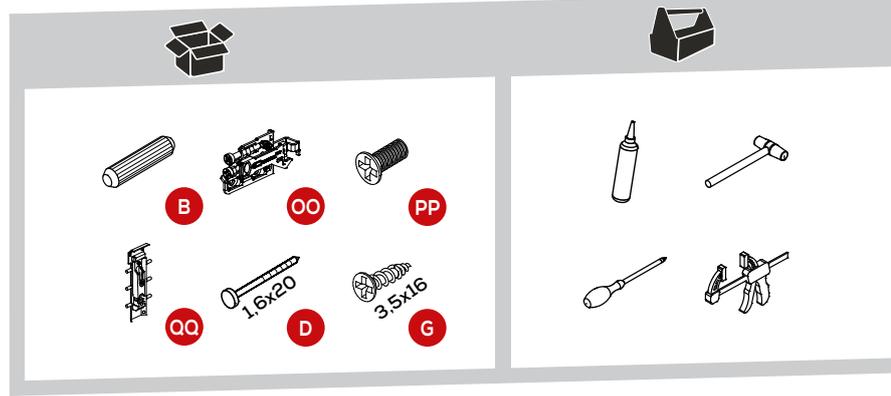

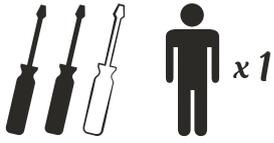

“

Le dessus des meubles hauts doit être installé à une hauteur supérieure à 1000 mm par rapport au sol.

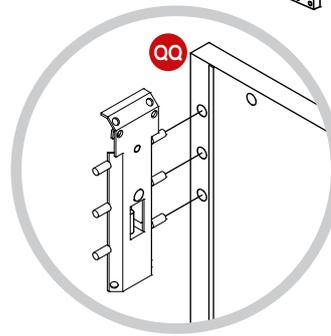

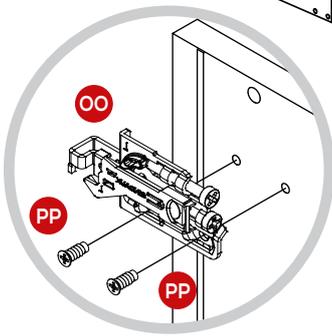

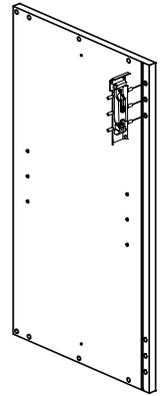

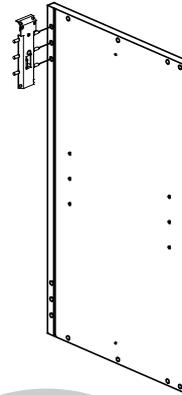

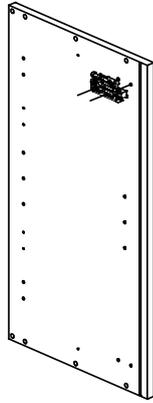

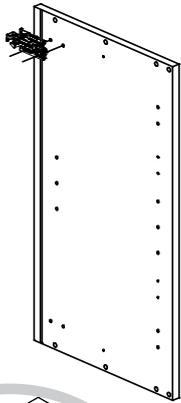

”
